

Media Kit 2024

Over 10,000 copies of African Power, Mining & Oil Review are distributed free of charge, quarterly to all top Power, Mining and Oil & Gas operating companies in 42 countries in Africa, foreign embassies, utilities, vendors, governments and financial institutions, CEOs, CFOs, members of the management and supervisory boards, researchers, regulators, consultants and at many exhibitions and conferences.

AFRICAN POWER

Mining & Oil Review

African Power, Mining & Oil Review is a publication that focuses on creating a networking forum for the decision makers in businesses and governments across the African continent, who are either directly or indirectly involved within the Power, Mining and Oil sectors in Africa. We inform, educate and create business and networking opportunities for all companies, organisations or governments that are interested in expanding their business interest across Africa and beyond, in the Power, Mining and Oil sectors.

African Power, Mining & Oil Review is the only publication in Africa that provides a quarterly reference platform, industry trends, arrival of new investors, exclusive biographies of leading players in Africa's energy sector and many more power related topics.

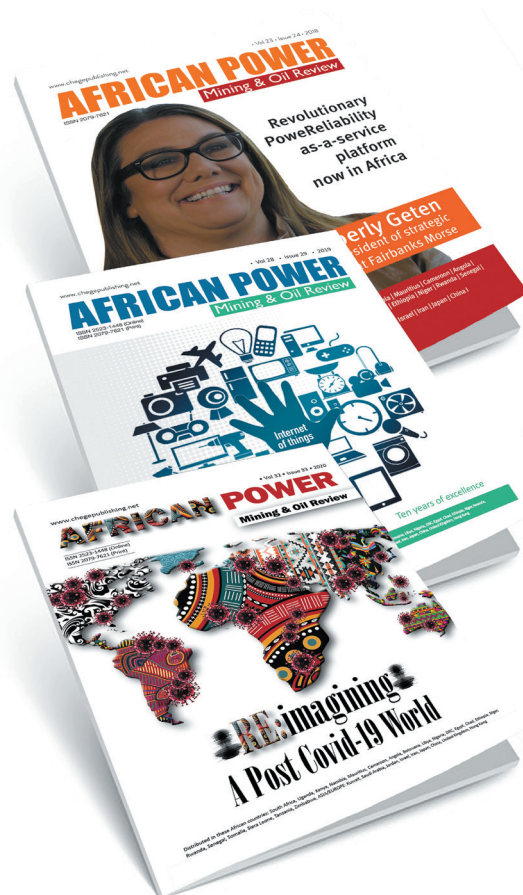

- **MINING:**

Furthermore, the editorial content in the mining sector also highlights the latest technologies, developments or trends in the mining industry across Africa, investment opportunities, new mineral deposits, mining legislation in different African countries, Exploration & Production, exclusive biographies of leading players in Africa's mining sector, mergers and acquisitions and many more mining topics.

- **OIL:**

African Power, Mining & Oil Review highlights major developments in the Oil and Gas industry, operations by investment institutions, Mergers, acquisitions and takeovers, new licenses; constructions of LNG plants, generation and exploration technology, environmental 'safety, production, storage, transportation and distribution, exclusive biographies of leading players in Africa's Oil and Gas industry, Oil and Gas producing country profiles and many more Oil and Gas industry related topics.

African Power, Mining & Oil Review is a Business-to-Business publication which presents a lasting opportunity for companies to reinforce their corporate branding and leadership position in these sectors, by showing their capabilities, innovations, technology platforms, products & services. Hence creating new opportunities & marketing network to enable them to deliver compelling positioning & enhancing their business in a competitive marketplace, which is vital in today's business world especially if they are doing business with or in Africa.
